

Mommy Blogger Thoughts on Lunchbugs from

"What I like best is how roomy the lunchbug! The girls can carry their sandwiches, chips, drink, and dessert with room to spare. We could even fit in little Tupperware containers and silverware! And when they're done eating, the bag folds flat for easy storing in their backpacks."

"When I packed lunch the first time in my twin sons' new Lunchbug bags they were really excited. They have such bright and cheery colors and the boys thought that they were really getting something extra special. Lunchbugs are also extremely easy to clean, which is a huge plus when you have little kids near by. I love love love these bags."

"We easily fit our snacks for the park in this bag and it was the perfect size for my 4 year old to carry on her own. I like that it has a zipper closure that not only keeps the contents in the bag, but is kid-friendly. I thought the quality of the lunchbug was wonderful and the design was adorable."

"I received the cutest ladybug bag for my daughter. It worked perfect for a lunch bag and I was really impressed with how easy it is to clean. I actually threw it in the washing machine and had no problem!"

"Seriously, these must be the cutest lunch bags that I have ever seen! Don't be fooled by their cuteness though, Lunchbugs are also uber practical and eco-friendly. Not to mention, that Lunchbugs are the more responsible way to pack a lunch. Since they are reusable, you will also be cutting down on unnecessary waste."

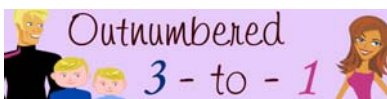

"We've used our Lunchbug at least three times a week. The fact that they are made of safe, durable, machine-washable materials really make it worth it. These are products that will stand the test of time."

"Mimi the Sardine Lunchbugs are a winner in my book because they are machine washable, made from environmentally friendly and have a zipper closure instead of that noisy Velcro! I DID machine wash ours (I'm always wary of washing something for the first time), and it came out looking as good as new!"

"Lunchbugs are lunchbags for kiddos that are just so cute! They aren't huge and bulky like some lunchboxes. I love how they are different...I'm not one who likes the same ole same ole stuff. They're just adorable, uniquely cute!"

"We really like using the lunchbug. We've filled it up with snacks and taken it with us to the park a few times. It's so easy to clean all of the dirt and sand off of it, so I really don't have to worry about ruining it. In this country's tough economic times, it's also a bit reassuring to know that these products are made in the USA."

"These adorable Lunchbugs (yes, I said bug!) have a zipper closure with ample room for all lunch food. They are easy to clean and care for. It's a cotton bag that has a water-based acrylic coating. That makes it water, soil, and mess resistant, yet remains soft and supple."

"We've found no better way to pack a meal on the go than in a cute eco-chic Lunchbug by Mimi the Sardine! Complete with sturdy handles and a zipper at the top, the Lunchbug is tough enough to withstand the messiest of messes."

"Not only is it adorable, but it can be cleaned no matter what we spill in/on it. I've used it a few times for play dates and if anything got on it, I just had to wipe it clean. This lunch bag is made extremely well and will last us for a long time. With a logo like Eat. Spill. Be Happy, you can be sure that you're in good hands."
